

6th IEEE Conference on Cognitive Infocommunications

Call for Papers

CogInfoCom 2015

Győr, Hungary

19-21 October, 2015

<http://coginfocom.hu/conference/CogInfoCom15>

General Chair

Peter Baranyi, Szechenyi University/MTA SZTAKI, Hungary

General Co-Chairs

Anna Esposito, UNINA2/IIASS, Italy
Peter Foldesi, Szechenyi Istvan University, Hungary
Gabor Vattay, ELTE, Hungary

Honorary Chairs

Nick Campbell, TCD, Ireland
Toshio Fukuda, BIT, China & Nagoya University, Japan
William A. Gruver, Simon Fraser University, Canada
Helen Meng, Chinese Univ. Hong Kong
Asbjørn Røstadas, NTNU, Norway

Local Scientific Board

Jozsef Bokor, MTA SZTAKI, Hungary
Vilmos Csanyi, MTA, Hungary
Valeria Csepe, MTA Research Centre of Natural Sciences, Hungary
Laszlo Keviczky, MTA SZTAKI, SzE, BME, Hungary
Csaba Pleh, Eszterhazy Karoly College (EKC), Hungary

International Advisory Board

Hassan Charaf, BME, Hungary
Yanling Chen, BIPST, China
Asa Ericson, LTU, Sweden
Yuming Jiang, NTNU, Norway
Bernd J. Kröger, Aachen University, Germany
Claudiu Pozna, Brasov University, Romania
Bjørn Solvang, NUC, Norway
Wei Deng Solvang, NUC, Norway
Kesheng Wang, NTNU, Norway
Junzo Watada, Waseda University, Japan
Guenther Wirsching, KU Eichstatt-Ingolstadt, Austria

Track Program Committee

Zdenek Mikovec (Chair), CVUT, Czech Republic
Felix Ramos (Co-Chair), CINVESTAV, Mexico
Csaba Koren, Szechenyi Istvan University, Hungary

International Organizing Committee

Jan Balata, CVUT, Czech Republic
Stefan Benus, UKF, Slovakia
Tom Gedeon, ANU, Australia
Károly Hercegfői, BME, Hungary
Lasse Jansson, Centria, Finland
Miroslav Macík, CVUT, Czech Republic
Xarris Papageorgiou, ILSP – ATHENA R.C., Greece
Sakari Pieska, Centria, CUAS, Finland
Radu-Emil Precup, PUT, Romania

Local Organizing Committee

Laszlo Horvath, Óbuda University, Hungary
Peter Kadar, IEEE Hungary, Hungary
Zsolt Kovacs, Szechenyi University, Hungary
Gabor Szederkenyi, IEEE Hungary
Jozsef K. Tar, Obuda University, Hungary

Healthcare Relations Chair

Tamas Mihalydeak, University of Debrecen, Hungary

Industrial Relations Chair

Peter Galambos, MTA SZTAKI, Hungary

Secretary General

Anna Szemeréki, MTA SZTAKI, Hungary

Financial Chair

Aniko Szakal, IEEE Hungary Section, Hungary

Administration

Bernadette Mero, MTA SZTAKI, Hungary

Organizers: Szechenyi University, MTA SZTAKI, BME

Contact address: coginfocom2015@sztaki.mta.hu

Scope

CogInfoCom is a new interdisciplinary field of science defined as follows: Cognitive infocommunications (CogInfoCom) investigates the link between the research areas of infocommunications and cognitive sciences, as well as the various engineering applications which have emerged as the synergic combination of these sciences. The primary goal of CogInfoCom is to provide a systematic view of how cognitive processes can co-evolve with infocommunications devices so that the capabilities of the human brain may not only be extended through these devices, irrespective of geographical distance, but may also interact with the capabilities of any artificially cognitive system. This merging and extension of cognitive capabilities is targeted towards engineering applications in which artificial and/or natural cognitive systems are enabled to work together more effectively.

For more information on CogInfoCom please visit its official home-site at www.coginfocom.hu.

Contributions are expected from the following areas

Socio-cognitive ICT (including any approach that uses or influences collective knowledge)

Embodied and enactive cognitive systems (based on e.g. cognitive robotics and autonomous mental development)

Cognitive biases in CogInfoCom: how biases in human perception and high-level reasoning can be put to use in CogInfoCom systems

Cognitive control: control theoretical solutions based on or targeting cognitive and other human body related processes

Industrial applications of CogInfoCom (production engineering, production management etc.)

Ergonomics-based aspects of CogInfoCom

Avatar ergonomics

Human-car interactions

CogInfoCom channels (based on e.g. sensory substitution, sensorimotor extension)

Speechability (based on e.g. cognitive linguistics, verbal/non-verbal social communicative signals, speech technologies)

Augmented interaction capabilities and augmented cognition (based on e.g. multimodal interfaces and virtual avatars)

Ethology-inspired engineering / Etho-robotics

Mathability: modeling and understanding mathematical capabilities

Cognitive informatics and media

Future Internet (CogInfoCom aspects of e.g. Internet of Things, 3D Internet)

Cognitive networks of cars

Intelligent car informatics

Infocommunication-related aspects of the cognitive sciences

Intelligent vehicle and transportation systems (based on e.g. enhanced driver awareness, advanced driver assistance systems)

Augmented 3D capabilities (based on e.g. 3D visualization and immersive augmented/virtual interaction)

Interaction capabilities of CogInfoCom systems (based on e.g. HCI, HMI and HRI)

Human cognitive interfaces-virtual and real avatars (based on e.g. BCI, body area networks, virtual avatars)

Cognitive capabilities of Future Internet

Authors are encouraged to submit full papers describing original, previously unpublished, complete research, not currently under review by another conference or journal, addressing state-of-the-art research and developments. All papers will be reviewed and accepted papers will appear in the conference proceedings. Papers must be submitted electronically via EasyChair in IEEE format (double column A/4, 4-6 pages long).

Just like last year, publications of the 6th IEEE International Conference on Cognitive Infocommunications (IEEE CogInfoCom 2015) will be uploaded to the IEEE Xplore database upon consent of IEEE (in process). We reserve the right to exclude any paper from the final proceedings (as well as any official database), if it is not presented at the conference.

Authors' Schedule **First submission: 15 July, 2015 - DEADLINE EXTENDED!!!**

Notification of first review results: **17 August, 2015**

Final submission: **14 September, 2015**

Journal Publications Authors of selected best papers of the conference shall be invited to publish their previously unpublished research results in special issues of *international journals*.

Track and Session Organizers: Those who would like to propose a track or session (a set of oral or DEMO presentations) in order to introduce the new scientific results of their fields or large scale international projects are warmly welcome. Please kindly note that the minimum number of sessions is 3 per track and 1 session is of 4 publications.

Already registered tracks and sessions:

Track I – CogInfoCom aided engineering (Gabor Sziebig, NUC)

Track II – Accessibility of CogInfoCom Systems (Zdenek Mikovec, CVUT), *Invited keynote lecture by Zdenek Mikovec*

Track III – Cognitive Factors in Transport Planning (Csaba Koren, SZE)

Session 1 – Cognitive Factors in Road Design - I (Attila Borsos, SZE), *Invited keynote lecture by Attila Borsos*

Session 2 – Cognitive Factors in Road Design - II (Emese Makó, SZE)

Session 3 – Transport Related Decision Making (Balázs Horváth, SZE), *Invited keynote lecture by Balázs Horváth*

Track IV – Socio-Cognitive ICT (Hassan Charaf, BME)

Track V – NeuroCogSpace Project (Károly Hercegfői BME; Ferenc Honbolygó MTA TTK; Péter Galambos MTA SZTAKI)

Track VI – The HuComTech project: Formal approaches to the study of human behavior (László Hunyadi and Tamás Váradi, DE)

Already registered sessions:

Session I – Cognitive acausal representations (Peter Varlaki, SZE)

Session II – Customizable Cognitive Content Management (Andras Hajdu, Marianna Zichar, University of Debrecen)

Session III – Special session on Mathability (Attila Gilany, DE)

Session IV – Digital Era for Leadership and Management Communication (Patrick Waldbuesser, SZE)

Session V – Multimodal information exchange (Costanza Navarretta, Thomas Ousterhout, University of Copenhagen)

Session VI – Speechability (Helen Meng, Chinese University of Hong Kong)

Technical Program Committee Chair

Gyula Sallai, BME, FIRCC, Hungary

Technical Program Committee Co-Chair

Adam Csapo, Szechenyi University, Hungary
Levente Kovacs, Óbuda University, Hungary
Costanza Navarretta, University of Copenhagen, Denmark

Technical Program Committee

UNDER DEVELOPMENT

Istvan Boda, University of Debrecen, Hungary
Janos Botzheim, Tokyo Metropolitan University, Japan
Hassan Charaf, BME AUT, Hungary

Asa Ericson, LTU, Sweden

Peter Foldesi, Szechenyi University, Hungary

Tom Gedeon, ANU, Australia

Bassam Haddad, University of Petra, Jordan

Andras Hajdu, University of Debrecen, Hungary

Joni Jamsa, Centria CUAS, Finland

Gyorgy Kampis, HPS - ELTE, Hungary

Laszlo T. Koczy, SZE, Hungary

Maria Koutsombogera, ILSP-ATHENAR.C., Greece

Laszlo Kovacs, Miskolc University, Hungary

Szilveszter Kovacs, Miskolc University, Hungary

Mika Luimula, TUAS, Finland

Gabor Magyar, BME, Hungary

Francesco Masulli, Università di Genova, Italy

Helen Meng, Chinese University of Hong Kong

Mohamad Yazid Mustafa, NUC, Norway

Geza Nemeth, BME, Hungary

Frederic Noel, G-SCOP, Univ Grenoble-Alpes, France

Stanislav Ondas, TUKE, Slovakia

Sakari Pieska, Centria CUAS, Finland

Geanette Polanco, NUC, Norway

Claudiu Pozna, Brasov University, Romania

Radu-Emil Precup, PUT, Romania

Erzsebet Toth, University of Debrecen, Hungary

Jouni Tervonen, University of Oulu, Finland

Yeung Yam, Chinese University of Hong Kong

Klara Vicsi, BME, Hungary

Marianna Zichar, University of Debrecen, Hungary

CogInfoCom@Hand™ – new mobile application for easy access to information about all collected papers and the IEEE international conference series on Cognitive Infocommunications including dynamic conference program updates. Available for iOS and Android smart phones!

6th IEEE Conference on Cognitive Infocommunications

Call for Demonstration

~ A venue for science, future professionals and industry representatives to meet ~

The 6th IEEE CogInfoCom 2015 organizing committee invites proposals for demonstrations to be given at the conference.

The demonstrations provide a forum for researchers as well as industry participants to demonstrate working systems, applications, tools or showcases of basic technologies to the conference attendees. The goal of the demonstrations is to showcase a spectrum of applications ranging from research prototypes to pilot solutions and even products that use cognitive infocommunications technology and provide functionality in the context of cognitive learning and information technology. For submissions to this event, it is very important to describe the demonstration setup, functionality and benefit to the viewer of the demonstration. Technical background discussion can be presented at the actual demonstration or can be submitted as an industry track or regular conference paper; the focus of the demonstrations themselves should be to show the functionality to viewers. Demonstrations are expected to be highly interactive.

Topics for demonstrations include but are not limited to:

Socio-cognitive ICT (including any approach that uses or influences collective knowledge)

Embodied and enactive cognitive systems (based on e.g. cognitive robotics and autonomous mental development)

Cognitive biases in CogInfoCom: how biases in human perception and high-level reasoning can be put to use in CogInfoCom systems

Cognitive control: control theoretical solutions based on or targeting cognitive and other human body related processes

Industrial applications of CogInfoCom (production engineering, production management etc.)

Ergonomics-based aspects of CogInfoCom

Human-car interactions

CogInfoCom channels (based on e.g. sensory substitution, sensorimotor extension)

Speechability (based on e.g. cognitive linguistics, verbal/non-verbal social communicative signals, speech technologies)

Augmented interaction capabilities and augmented cognition (based on e.g. multimodal interfaces and virtual avatars)

Ethology-inspired engineering / Etho-robotics

Mathability: modeling and understanding mathematical capabilities

Cognitive informatics and media

Future Internet (CogInfoCom aspects of e.g. Internet of Things, 3D Internet)

Intelligent car informatics

Infocommunication-related aspects of the cognitive sciences

Intelligent vehicle and transportation systems (based on e.g. enhanced driver awareness, advanced driver assistance systems)

Augmented 3D capabilities (based on e.g. 3D visualization and immersive augmented/virtual interaction)

Interaction capabilities of CogInfoCom systems (based on e.g. HCI, HMI and HRI)

Human cognitive interfaces-virtual and real avatars (based on e.g. BCI, body area networks, virtual avatars)

Cognitive capabilities of Future Internet

Cognitive networks of cars

Demonstrations ideally showcase a system or application that clearly underlines the benefit of using and deploying cognitive infocommunications technologies. In addition, tools and basic technologies that implement or use cognitive infocommunications or cognitive infocommunications approaches are invited for demonstration. *Any devices or hardware/software developments which build on, take into account and/or enable interaction between various levels of natural/artificial cognitive capabilities are welcome!*

Demonstration Setup

The demonstrations are planned to be a single event during the conference, open to all conference attendees, with the goal of open and constructive discussions. One table will be provided with power as well as Internet connection. Posters can be displayed behind or next to the tables (depending on the space) either on pin boards or the wall. Demonstrators must bring any additional equipment they require as no equipment will be provided by the conference.

Demonstration Submissions

Authors submitting papers to the demonstrations must submit a maximum 2-page paper that clearly outlines the demonstration that will be set up and the functionality a visitor to the demonstration can observe. The technical background, such as the architecture or algorithms, should not be described in detail; such a description would best be submitted to the industry track or main conference paper track. Including links to supporting material, e.g. a video on the web or a web-based demo itself, is highly encouraged. All submissions must follow the specific submission guidelines on the COGINFocom2015 web page. The accepted demonstration submissions will be included in the conference proceedings. **Please kindly indicate the intention of your DEMO participation via e-mail at your earliest convenience in order to help the organization of the event. Please include "[COGINFocom2015-DEMO]" in the subject of your emails and send them to coginfocom2015@sztaki.mta.hu.**

Important Dates

Demo Submission: **15 July, 2015 / DEADLINE EXTENDED!**

Notification: 17 August, 2015

Final submission: 14 September, 2015

Conference: 19-21 October, 2015 in Győr, Hungary

Submissions

Researchers and practitioners are invited to submit demo proposals to the demo co-chairs: to be decided

Note:

Every demo paper accepted for publication in the Proceedings of 6th IEEE Int'l CogInfoCom 2015 MUST be presented during the conference.
